THE PROJECT

Pepper is a well established end-to-end mortgage origination, third-party loan service and asset manager.

PROJECT OVERVIEW

The JAC team assisted Pepper in the formation of their project requirements and early assessment of property options, concluding guidance and recommendation in the areas of design, programme, technical suitability, financial forecasting and risk profiling.

The JAC Design Studio produced a modern working design and aesthetic, creating a space that is functional and agile, a working environment that encourages staff to focus and perform. JAC Furniture worked closely with the design studio to provide solutions that were in line with the shared agile working vision.

ABOUT THE BUILDING

Harman House is a landmark office building that offers fully refurbished Grade A office accommodation. The building has been comprehensively refurbished to include a newly reconfigured reception area, common parts and external areas.

"Our appointment to provide Project Management and Design Consultancy to Pepper is testament to the great relationship built up over the years. To be able to continue the association is a fantastic demonstration of the rapport that we endeavour to build with all our clients."

Zoe Smeeth
Project Director
JAC Group

JAC GROUP

JAC provides experienced project management expertise for office transformations. Independence, transparency and meticulous attention to detail is at the heart of our service. Working in collaboration with our design and furniture procurement team, we create beautiful, collaborative and flexible office interiors to help clients realise their workplace aspirations. After completion, our lifecycle team provides on-going client assistance.
