# THE PROJECT

NewDay is a leading consumer finance provider, specialising in the UK credit card market.

## Project Overview

NewDay sought a modern, bold environment to support their growth, JAC Group project managed the 30,000 sq ft delivery, appointing and overseeing numerous consultants including structural engineers to develop this complex scheme and protect the original features in a vast Victorian Warehouse.

Managing a 23 week construction delivery, JAC ensured that NewDay's vision was realised, all the while protecting their interest throughout an 18 month period.

## About the Building

The Grade II Listed Midland Goods Shed was built in 1850 as a temporary passenger terminal while King's Cross station was being built, and was then used for handling and storing goods brought to King's Cross from across the country. It has now been sympathetically restored and converted into a contemporary design, led by Bennetts Associates.

---

## JAC GROUP

---

JAC provides experienced project management expertise for office transformations. Independence, transparency and meticulous attention to detail is at the heart of our service. Working in collaboration with our design and furniture procurement team, we create beautiful, collaborative and flexible office interiors to help clients realise their workplace aspirations. After completion, our lifecycle team provides on-going client assistance.
