

A modern office interior with a high ceiling featuring a grid of recessed lights. In the foreground, two bright red armchairs are positioned on a dark carpet. To the right, a large potted plant with broad green leaves and pink flowers sits on a white reception desk. In the background, a glass-walled entrance with a green exit sign is visible. The overall atmosphere is clean, professional, and contemporary.

Cost Consultancy

THE PROJECT

MHPS proposes solutions for the improvement of operating thermal power generators using the latest digital technology.

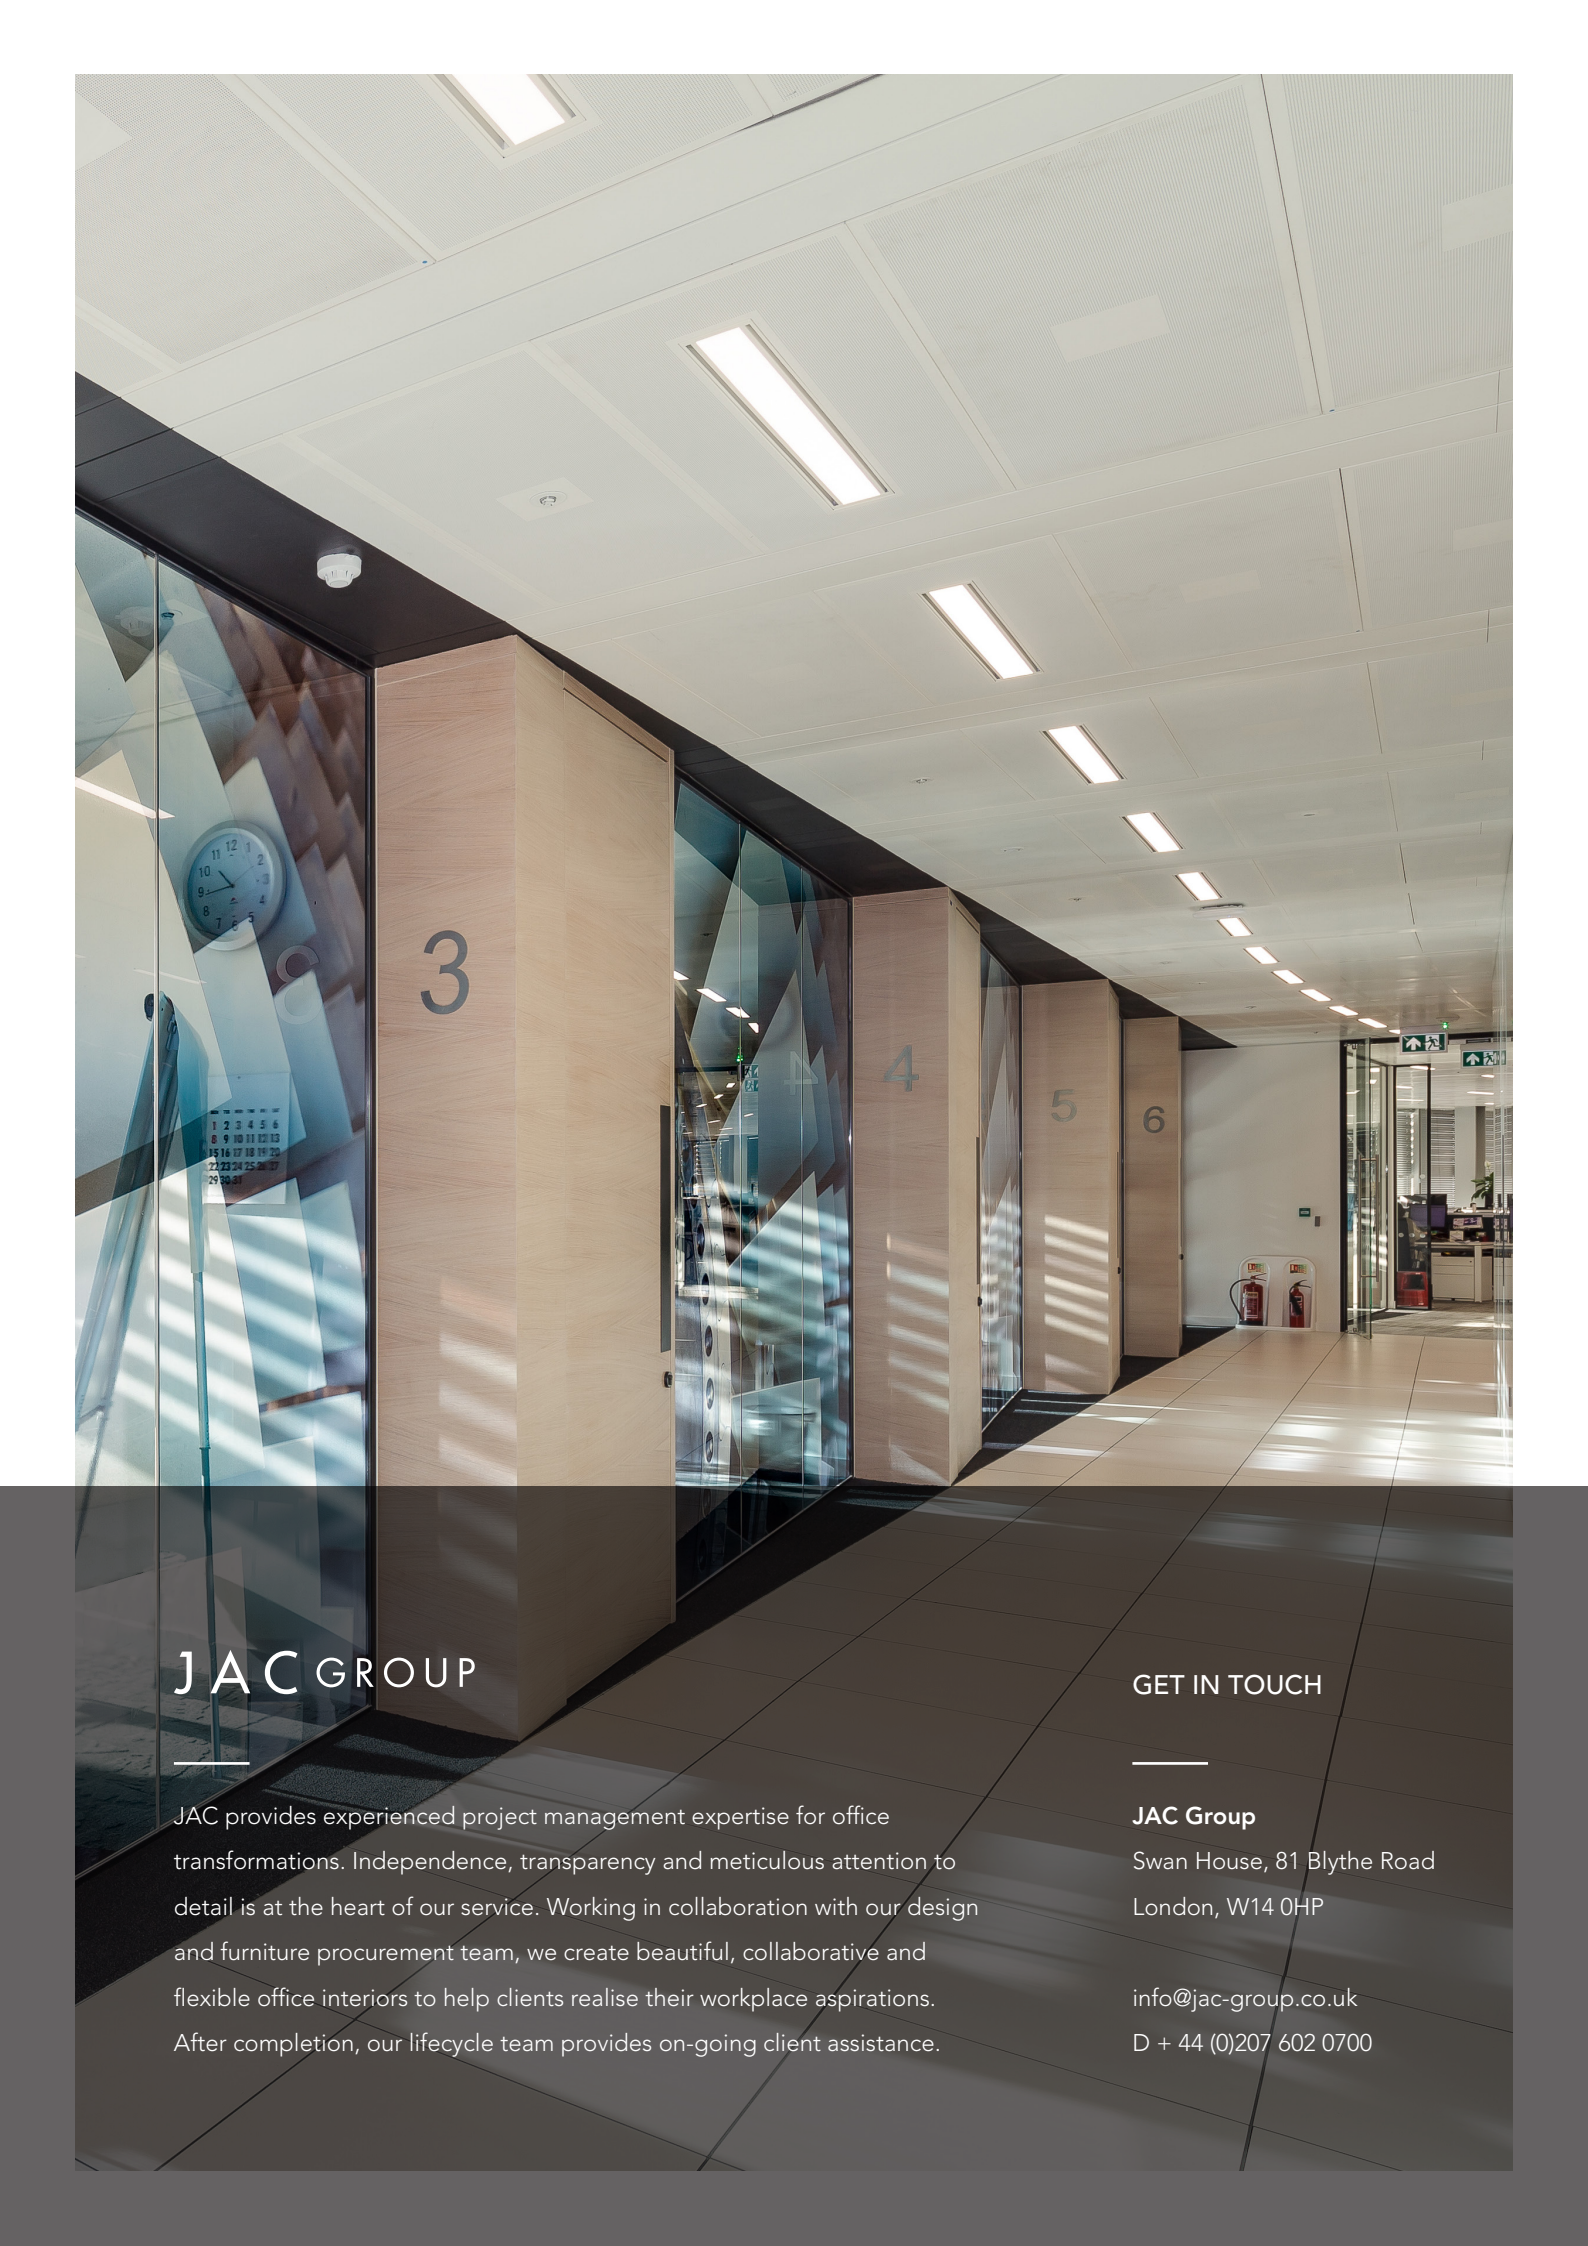

PROJECT OVERVIEW

Global leader in efficient and sustainable power generation, Mitsubishi Hitachi Power Systems Europe, has chosen the JAC Project Management and Design team to co-ordinate its move from Mayfair to The Point in Paddington.

When MHPS's lease was due to expire, the company briefed JAC to support a cost-effective move to a 12,000 sq ft office in Paddington that better reflects its brand. The new office has undergone a Category A refurbishment and has spectacular views across London's West End.

JAC GROUP

JAC provides experienced project management expertise for office transformations. Independence, transparency and meticulous attention to detail is at the heart of our service. Working in collaboration with our design and furniture procurement team, we create beautiful, collaborative and flexible office interiors to help clients realise their workplace aspirations. After completion, our lifecycle team provides on-going client assistance.
